VideomentheCloud
Collaborative file transfer platform

Videomenthe's collaborative platform for fast, secure exchange of media files

VideomentheCloud provides custom portals accessible via login and password for sending content over IP or making content available on VideomentheCloud storage hosted in France.

|				
Login / mot de passe authentification	Transfer acceleration	Security of transfers through data encryption	File Delivery reliability – checkpoint restart	Choice of files storage, backup and purge
Supervised hosting in France	Tracking for the administrator	Notifications of content delivery	Simple and intuitive user interface	Customizable portal

This content can be **downloaded** by **administrators and authorized users**, but also stored or purged as required. This service is based on **SIGNIANT**'s Media Shuttle solution, hosted on Videomenthe servers in our cloud.

Secure and accelerate your media filemedia files with **VideomentheCloud**
